

Angel Back Office Password Reset

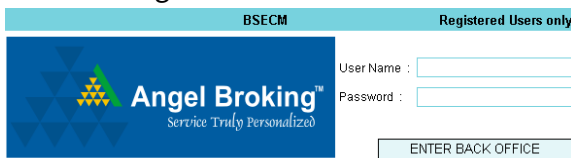

Launch of Automated Password Reset Interface for Angel Back Office Users.

This interface is designed and deployed to provide additional level of security, reduce end-user downtime and increase service levels.

All users must enroll in the password management system in order to change or retrieve forgotten password. Users can enroll by visiting the [Angel Back Office](#) portal → clicking on Angel Broking Ltd. → inputting User Name and Password → answering the Three Secret Questions. Users must log-in again to access the output page.

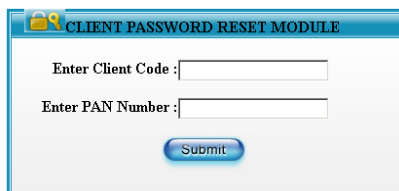

Once users have enrolled into the password management system, they can reset their password by following the steps mentioned below:

1. Click on Angel Broking Ltd.
2. Click on Forgot Password.

[Forgot Password? \(Clients Only\)](#)

3. Input Client Code and PAN Number.

4. Answer any two secret questions and click submit.
5. Email / Mobile message is sent to the user.
