Source: Company, Angel Research
ITC posted a poor set of numbers for 3QFY2016, both on the top-line and bottom-line fronts. The top-line was subdued due to lower growth in Cigarettes \& Hotel businesses and de-growth in Agri business, which in turn resulted in a lower profitability of the company.

Key highlights: ITC's net sales for the quarter grew by $2.6 \%$ yoy to ₹ $9,177 \mathrm{cr}$. The Cigarettes business posted a $5.7 \%$ yoy growth in net sales to ₹ $4,380 \mathrm{cr}$, aided by price hikes. A muted sales growth in the Cigarettes business resulted in the segment posting a $3.4 \%$ yoy growth in its EBIT. The FMCG (others) business, which posted a $7.1 \%$ yoy growth in net sales to $₹ 2,478$ cr, posted an EBIT level profit of ₹ 19 cr . Further, the Paperboards and Packaging division posted a growth of $5.1 \%$ yoy and $12.7 \%$ yoy in revenue and segmental EBIT, respectively. The Hotels business posted a $4.5 \%$ yoy growth in its top-line, while it reported a de-growth at the EBIT level. The Agri business posted a de-growth of $7.3 \%$ yoy in revenue, while its EBIT de-grew by $3.1 \%$ on a yoy basis. Overall, the company's OPM expanded by 55 bp yoy to $39.3 \%$, owing to lower raw material costs (down 254bp yoy as a \% of sales).

Outlook and valuation: We expect ITC to report a top-line and bottom-line CAGR of $4.5 \%$ and $5.0 \%$ respectively over FY2015-18E. At the current market price, the stock is trading at $22.2 x$ FY2018E EPS. We recommend buy on the stock with a target price of ₹359.

## Investment rationale

- Cigarettes business to enjoy strong pricing power: We believe ITC's cigarette business is well poised to continue to post a healthy profit growth over FY2015-17E due to its strong pricing power and improvement in volume growth.
- Non-cigarette businesses to register healthy growth in FY2015-17E: While cigarettes remain the main profit center for the company, investments in the non-cigarettes businesses such as FMCG, Hotels and Paperboards have given the company a foothold in the respective businesses. We expect these businesses to play a major role in driving the company's long-term growth.

## Outlook and valuation

We expect ITC to report a top-line and bottom-line CAGR of $4.5 \%$ and $5.0 \%$ respectively over FY2015-18E. At the current market price, the stock is trading at $22.2 x$ FY2018E EPS. We recommend a Buy on the stock with a target price of ₹ 360 .

## Company Background

ITC is a diversified conglomerate, present across various categories - Cigarettes ( $41 \%$ of revenue); Hotels ( $3 \%$ of revenue); Paperboards and Packaging ( $13 \%$ of revenue); Agri-business ( $22 \%$ of revenue); and other FMCG (branded apparel, personal care, stationery, safety matches and specialty papers [21\% of revenue]). Although ITC is a market leader in the cigarettes category, it is rapidly gaining market share even in its evolving businesses of packaged foods and confectionery, branded apparel, personal care and stationery.
