Source: Company, Angel Research
Note: Closing price as on 11th Aug, 2021

Markets consolidated for the second month in a row due to second Covid wave – The Nifty consolidated for the second month in a row post a sharp up-move in May and was up by just 0.3% in July as FIIs turned net sellers for the month and withdrew Rs. 11,308 crore from Indian equities. July turned out be the second month of consolidation post the 6.5% up-move in May.

India economic recovery continued to pick up pace in July– The month of July witnessed continued sequential recovery in economic activity as significant portion of the economy was opened up across the country which was reflected in high frequency indicators across the board like PMI, auto sales, e-way bills and GST collection numbers. India's manufacturing output rebounded strongly as indicated by the PMI which came in at 55.3 as compared to 48.1 in June and is the strongest reading in the past three months and indicates that manufacturing activities are fast recovering from the pandemic induced slowdown in May and June. However, the services PMI reading of 45.4 points to continued contraction in the services sector though it has rebounded from June's reading of 41.2. However, we expect services growth to pick up significantly over the next few months given gradual relaxations in restrictions.

New Covid cases have stabilized in India – India has been reporting around 40,000 new Covid cases daily while positivity rate too has been hovering between the 2.0-2.5% mark as compared to over 4 lakh new cases at the peak of the second Covid wave with positivity rate of well over 20%. Moreover, Kerala accounts for over 50% of the daily new cases with a positivity rate of ~13%. Barring Kerala the Covid situation in the rest of India has improved significantly and positivity rate for rest of India ex-Kerala now stands below the 2.0% mark.

Steady progress on the vaccination front is a key positive – Post a slowdown in May there has been a ramp up of production from June onwards which has led to a pickup in the vaccination drive. The percentage of population who has received at least one dose has improved from  $\sim 12.1\%$  level in May-end to 29.0% as on the 8th of Aug'21. India has till date administrated 50.9 crore doses and 8.3% of the population have been fully vaccinated. Moreover, the vaccination rate continues to gather pace with an average of 51.5 lakh doses per day in the week ending the 6th of Aug.

Continued liquidity from US Fed will provide support to Indian markets – Global markets continued to maintain their upwards trajectory despite a third Covid wave in the UK and the US given continued liquidity infusion by global central banks. The US has lad led the way through its quantitative easing program with the Fed pumping in USD 142bn of liquidity in July 2021 and a total of USD 716bn in CY21 despite high inflation numbers. We expect Global central banks will continue with their QE programs which will provide support to global equities including India.

## **Federal Bank**

- Federal bank is one of India's largest old generation private sector banks. At the end of FY2021 the bank had total assets of Rs. 1.9 lakh cr. with deposits of Rs. 1.56 lakh cr. and a loan book of Rs. 1.2 lakh cr.
- Federal Bank has posted a good set of numbers for Q1FY22 despite the second Covid wave as NI/ PPOP increased by 9.4%/21.8% YoY. Provisioning for the quarter was up by 22% YoY as a result of which PAT was down by 8.4% YoY. GNPA and NNPA ratio stood at deteriorated marginally to 3.5% and 1.23% while restructuring went up by 0.79% gog to 1.83% of advances.
- Overall asset quality held up well in Q1FY22 despite the second Covid wave. We expect asset quality to improve from Q2FY22 given continued opening up of the economy. We expect the Federal bank to post NII/PPOP/PAT growth of 22.8%/23.7%/23.2% between FY20-23 and remain positive on the bank.

#### **Key Financials**

| Y/E     | NII    | NIM | PAT     | EPS  | ABV  | ROA | ROE  | P/E | P/ABV |
|---------|--------|-----|---------|------|------|-----|------|-----|-------|

## **HDFC Bank**

- HDFC bank is India's largest private sector bank with an asset book of Rs. 11.3 lakh crore in FY21 and deposit base of Rs. 13.4 lakh crore. The Bank has a very well spread-out book with wholesale constituting ~54% of the asset book while retail accounted for the remaining 46% of the loan book.
- Q1FY22 numbers were impacted due to the second Covid wave which has led to an increase in GNPA/ NNPA by 15/8bps QoQ to 1.5% and 0.5% of advances. Restructured advances at the end of the quarter stood at 0.8% of advances as compared to 0.6% in Q4FY21. bank posted NII/PPOP/PAT growth of 8.6%/18.0%/16.1% for the quarter despite higher provisioning on the back of strong loan growth of 14.4% YoY. NIMs for the quarter declined by~10bps sequentially to 4.1% due to interest reversals and change in product mix.
- The management has indicated that 35-40 days of collections had been lost but expects healthy recoveries from slippages in 2QFY22 which should lead to lower credit costs going forward. Given best in class asset quality and expected rebound in growth from Q2FY22 we are positive on the bank given reasonable valuations at 3.0xFY23 adjusted book which is at a discount to historical averages.

## **AU Small Finance**

- AU Small Finance Bank is one of the leading small finance banks with AUM of ~Rs. 34,688 Cr. at the end of Q1FY22. It has a well-diversified geographical presence across India. Wheels (auto) and SBL-MSME segment accounting for 37% and 39% of the AUM respectively.
- Q1FY22 numbers were better than expected as the despite the impact of the second Covid wave. AU reported NII/PPOP/PAT growth of 40.4%/1.2%/1.2% respectively in Q1FY22 while GNPA/NNPA ratios stood at 4.3%/2.3% of advances as compared to 4.3%/2.2% in Q4FY21.
- Collection efficiency remained strong during April/May/June at 95%/94%/114% respectively while GNPA remained stable at Rs. 1503 cr. sequentially. Given stable asset quality, we expect loan growth to pick up in Q2FY22 which should lead to a rerating for the bank.

## **Shriram City Union**

- Shriram City Union Finance is part of the Shriram group and is in the high margin business of lending to small businesses which account for 57.3% of the loan book as of end FY20. The company also provides auto, 2-wheeler, gold, and personal loans. The company posted a good set of numbers for Q1FY22 quarter due to positive surprise on the asset quality front. NII for Q1FY22 was up by 5.23% YoY to Rs. 920 crore while PPOP was up by 0.4% YoY to Rs. 569 crores. Provision during the quarter was down by 6.5% yoy to Rs. 290 crore while profits were up by 8.1% yoy to Rs. 208 crores.
- SCUF reported a strong 30% sequential decline in disbursement for the quarter which led to flattish AUM at ~ Rs. 29,599 crore. SCUF reported only marginal deterioration on asset quality front as Gross stage 3 loans increased by 54bps qoq to 6.91% while net stage 3 for the quarter increased to 3.46% while PCR ratio stood at 49.9%.

# Suprajit Engg.

- Suprajit Engineering (SEL), is the largest supplier of automotive cables to the domestic OEMS with presence across both 2Ws and PVs. Over the years, SEL has evolved from a single product/client company in India to having a diversified exposure which coupled with its proposition of low-cost player has enabled it to gain market share and more business from existing customers.
- SEL has outperformed the Indian Auto industry in the recent years (posting positive growth vs low double-digit declines for the domestic 2W and PV industry in FY21). The company believes that consolidation of vendors and new client additions would help in maintaining the trend of market/wallet share gains.
- SEL has grown profitably over the years and as a result boast a strong balance sheet (net cash). We believe SEL is prime beneficiary of ramp-up in production by OEMs across the globe and is well insulated from threat of EV (is developing new products). Its premium valuations are justified in our opinion owing to strong outlook and top-grade quality of earnings.

#### **Key Financials**

## **Escort Ltd.**

- Escort is a prominent tractor player domestically with market share of 11.3% for FY21. The company's brand of tractors is particularly strong in the northern as well as the eastern belt of India. The company has done well to improve the overall profitability and would be focusing on growing its market share.
- Considering record food-grain procurement by government agencies, strong rural economy as well expectation of good Kharif crop in 2021, we expect the tractor industry will continue to outperform the larger automobile space in FY22 with Escorts being a key beneficiary. Increasing spends on Infrastructure by the government and overall economic recovery would also aid construction equipment and railway division revenue growth.
- Escorts in the recent past has also entered into a strategic partnership with Kubota Corporation of Japan (one of the global leaders in farm machinery and implements), which provides further visibility of growth for the company, going forward.

## **GNA Axles Ltd**

- GNA Axles is one of the leading suppliers of rear axles to the Auto industry. The company is a major supplier of rear axles to the CV industry and is expected to be one of the biggest beneficiaries of the revival in the CV cycle. The company derives 60% of its revenues from exports while the balance 40% of the company's revenues comes from the domestic markets.
- GNA is expected to be one of the biggest beneficiaries of strong growth outlook for truck sales in US and Europe markets which are witnessing strong recovery in demand. US which accounts for almost 40% of the company's revenues has been registering strong class 8 truck sales.
- The venture into the SUV axle would provide the company with new growth avenues while the recovery in the domestic CV cycle also bodes well for the company. At current level the stock is trading at a P/E multiple of 11.6x FY23E EPS estimate of Rs. 58.

## **Key Financials**

## Ashok Leyland Ltd.

- The Ashok Leyland Ltd (ALL) is one of the leading player in India CV industry with a 32% market share in the MHCV segment. The company also has a strong presence in the fast-growing LCV segment.
- Demand for MHCV was adversely impacted post peeking out due to multiple factors including changes in axel norms, increase in prices due to implementation of BS 6 norms followed by sharp drop in demand due the ongoing Covid-19 crisis. MHCV segment has also started to recover over the past few months before the 2<sup>nd</sup> lockdown while demand for buses are expected to remain muted due to greater preference for personal transportation. We believe that the company is ideally placed to capture the growth revival in CV segment and will be the biggest beneficiary of the Government's voluntary scrappage policy and hence rate the stock a BUY.

# **Galaxy Surfact.**

- Galaxy Surfactants is a market leader in Oleo-chemical-based surfactants, which is used in personal and home care products including skin care, oral care, hair care, cosmetics, toiletries and detergent products.
- The company has been increasing its share of high margin specialty care products in its' portfolio which now accounts for ~ 40% of its' revenues while the balance is accounted for by the performance surfactant business. Company has very strong relationships with MNC clients like Unilever, P&G, Henkel, Colgate-Palmolive and supplies raw materials to them not only in India but also in the US, EU and MENA region.
- Though the company's operations were impacted due to the Covid-19 outbreak in FY21 we expect revenues to register a strong growth from FY22 onwards given the company's exposure to the personal and home care segment and recovery in the specialty segment. We are positive on Galaxy Surfactant and recommend a BUY with a target price of Rs. 3594.

## **Carborundum Universal**

- Carborundum Universal (CUMI) is part of the Murugappa group and is a leading manufacturer of abrasives, industrial ceramics, refractories, and electro minerals (EMD) in India having application across diversified user industries. The company is expected to benefit from improving demand scenarios across its end user industries such as auto, auto components, engineering, basic metals, infrastructure, and power.
- CUMI has shown good execution in execution in Q1FY22 with strong performance in Abrasives and EMD segments. Within Abrasive, the company is gaining market share (supply chain issues/preference for Indian supplier) and should benefit from good end user industry demand. EMD performance is likely to sustain owing to strong pricing and Volumes (due to China+1 strategy of its customers).
- Overseas operations improved in Q1 and operations are expected to be at normal levels. EBIDTA for the quarter was up by 172.5% YoY to Rs. 118 crore while EBIDTA margins also improved to 16.6%. Adj. Net profit for the quarter was up by 305% YoY to Rs. 78 cr.

# **Jindal Steel**

- Jindal Steel & Power Ltd. (JSPL) is one of India's largest Iron & steel companies with an installed capacity of 8.6mn Tonne at the end of FY2021. Global steel cycle has turned around due to normalization of demand in developed economies due to reopening of the economies.
- This has led to significant increase in demand for steel which in turn has led to record high international steel prices. Moreover, China's focus on limiting domestic production and removing export rebates for various categories of steel has also led to fall in Chinese exports which has led to lower domestic prices in China but has led to firming of international steel prices.
- JSPL has posted a good set of numbers for Q1FY22 due to firm domestic prices despite exhausting all low cost iron ore from Sarda mines. The company has also been deleveraging its balance sheet with net debt expected to come down to ~Rs. 8,000cr by FY2022 which should lead toa rerating in the stock. At current levels the stock is trading at EV/EBIDTA of 4.0xFY2022 EBIDTA and offers value given the upturn in global steel cycle.

# **Crompton Gr. Electricals**

- Crompton Greaves Consumer Electrical (CGCEL) is of India's leading fast moving electrical goods (FMEG) company with a strong presence in the fan and residential pump category. The company is the market leader in the domestic fan and residential water pump business with value market share of 24% and 28%, respectively.
- Over the years' company has built a strong distribution network of over 3500+ dealers. The company is leveraging its strong distribution network to expand into other product categories like water pump, lightings and small appliances.
- The company has posted a decent set of numbers for Q1FY22 despite the second Covid wave with revenue growing by 45.9% YoY to Rs. 1,050 crore. EBITDA for the quarter increased by 23.6% YoY to Rs. crores while margins contracted by 215 bps yoy. PAT for the quarter was up by 26.7% yoy to Rs. 94.8crores. Given continued normalization of economic activities we expect growth to improve over next few quarters which will drive stock performance.

# Dalmia BharatLtd

- Dalmia Bharat (DBL) is among the top four cement manufacturers in the country, with an installed capacity of 30.75 MTPA (48% in the southern region and 52% in the eastern region) as on FY21. DBL is play on ramp-up in volumes owing to its new capacities in East and West
- DBL has added ~4.2MTPA capacity in FY21 and is in midst of adding ~8MTPA (~5.4MTPA in FY22E and ~2.6MTPA in FY23E, mostly in East & Murli) which would drive the volume growth in the near future. Moreover, the company has laid out a clear capital allocation policy and has plans to grow its capacity by 15% CAGR and reach 110-130MTPA by FY30.
- We expect the demand environment to remain strong given the impetus on infrastructure spend. We expect cement volume CAGR of ~12% over FY21-23E on the back of strong demand and capacity absorption.

## L&T Infotech

- L&T Infotech (LTI) is one of the fastest growing mid cap IT companies in India. IT is part of the L&T group and provides services like ADM, Enterprise solutions, Infrastructure management services etc.
- The company has a very strong presence to the BFSI & manufacturing verticals which accounts for ~45% and 17.5% of the company's revenues and are amongst the least impacted verticals due to the shutdown on account of Covid - 19. The company doesn't have a very large exposure to service oriented verticals like travel & Tourism which are amongst the worst impacted due to the Covid – 19 outbreaks.
- LTI has been growing significantly faster than both mid and large cap peers over the past few years on the back of strong deal wins and we expect the outperformance to continue for the company. We expect the company to post revenue/EBITDA/PAT growth of 18.6%/22.9%/22.4% between FY20-FY23 given a strong deal pipeline and increased demand for digital solutions.
