ou can mention what the other states are offering, we will meet or beat their offer," Telangana Industries Minister K T Rama Rao told a group of visiting French investors last week. It's a reflection of the frenzy with which Telangana Rashtra Samiti (TRS) government of India's youngest state it was formed in 2014 - seeks to transform itself into an investment destination of choice.

IT, pharma, aerospace and life sciences are the focus but the list of companies that have shown interest in setting base in the state recently covers a much wider ambit - Microsoft, Amazon, US-based Triton Electric Vehicle, Welspun and ITC. Microsoft, too, is planning a ₹15,000-crore data centre near Hyderabad.

According to the latest data shared with Business Standard, the state has attracted as many as 16,639 units inviting₹2.23 trillion worth of investments creating close to 2 million jobs in a span of seven years since its formation. Out of this, over ₹2 trillion came from 933 large business units and ₹22,480 crore came from 15,706 micro, small and medium enterprises.

This approach to problem-solving When Malabar Group Chairman - truly single-window — may have M P Ahammed decided to set up a played its part in pushing the state gold and diamond jewellery manufrom 13th spot in the all-India ease of facturing unit along with a refinery, doing business rankings in 2015, to he had entrusted an independent agency to look at various states. "We second and third spot respectively in 2016, 2017 looked at Karnataka, Tamil Nadu, Maharashtra and West Bengal. Even land prices are significantly lowworks with investors to er than other states, and that cost will in 15 days through its platalso be reimbursed in the form of tax Even after the deal, Jacob is part form, the Telangana State Industrial sops once we set up the unit,"

Ahammed said. He had announced a ₹750-crore investment plan in September 2021, offering 2,500 jobs. This aggressive job focus has led

to the generation of 2,74,303 jobs in the top five sectors — pharmaceuticals and chemicals, food processing, plas-

tic and rubber, engineering, and research and development. These sectors together saw investments of around ₹41,312 crore in the past seven years. It is this aggressive nature that led to an increase in Telangana's share in national GDP by 26 basis points to 5 per cent in 2020-21 against 4.74 per cent a year before, despite being hit by Covid-19. Like other states that are focusing on local hiring, the state has also said that it will not demand reservations in the private sector because that may be counter-productive.

The downside is that the impact this warp-speed industrialisation is allegedly having on the environment. One consequence has been rapid deforestation. "They are only thinking about investment numbers, not the impact on the environment," said P Udav Krishna, founder, Vata Foundation, a Hyderabad-based NGO. For example, he pointed out if the

forest department doesn't give clearance for cutting trees within 15 days, it is deemed as approved, according to the state's policy. "Two months of lockdown reduced our temperature by 5 degrees during the summer. That itself shows the impact of rising industrialisation without thinking about nature," he added.

Critics indicate that the lack of opposition parties is making matters worse. In the 2018 Assembly elections TRS, which is an ally of the ruling National Democratic Alliance at the Centre, won 88 seats, more than 70 per cent of the total 119 seats. The party registered a thumping win in recent local body elections too. Political success, therefore, will only strengthen this "meet or beat" strategy - and the long-term consequences will be set aside for another day.

Fossil fuel plans evade **Paris limits**

BS REPORTER 20 October

Despite increased climate ambitions and net-zero commitments, governments still plan to produce more than double the amount of fossil fuels in 2030 than what would be consistent with limiting global warming to 1.5°C, according to the 2021 Production Gap Report by leading research institutes and the UN Environment Programme (UNEP).

The report, first launched in 2019, measures the gap between governments' planned production of coal, oil, and gas and the global production levels consistent with meeting the Paris Agreement temperature limits. Two years later, the report released on Wednesday found the production gap largely unchanged.

Over the next two decades, governments are collectively projecting an increase in oil and gas production, and only a modest decrease in coal production. Taken together, their plans and projections see global, total fossil fuel production increasing out to at least 2040, creating an ever-widening production gap.

'The devastating impacts of climate change are here for all to see. There is still time to limit long-term warming to 1.5°C, but this window of opportunity is rapidly closing," says Inger Andersen, executive director of UNEP.

Water governance reform

The fifth and last in a series of weekly articles on the new National Water Policy

The decision to form the Ministry of Jal Shakti in 2019 was an important milestone in reforming water governance in India. It brought together under one umbrella the departments dealing with drinking water and irrigation. Ever since Independence, the governance of water has su ffered "hydro-schizophrenia": that between irrigation and drinking water, surface and groundwater, as also water and wastewater. The new National Water Policy (NWP) suggests urgent action to overcome each of these divisions. Government departments at the Centre and states have generally dealt with just one side of these binaries, working in silos, without co-ordination with the other side. As a result, critical inter-connections in the water cycle have been ignored, seriously aggravating water problems. We fail to see the link between rivers drying up and over-extraction of groundwater, which reduces the baseflows needed by rivers to have water even after the monsoon. Placing drinking water and irrigation in silos has meant that aquifers providing assured sources of drinking water dry up over time, because the same aquifers are used for irriga-Division tion, which consumes much higher volumes of water. This has adversely impacted availability of safe drinking water in many areas. And when water and wastewater resource; are separated in planning, the result generally is a fall River in water quality, as wastewater ends up polluting supplies of water. Central Water revival The Commission (CWC) set up in 1945 is India's apex body dealing with surface water and the Central Ground Water Board (CGWB) set up in 1970 is the one handling groundwater. Over several decades, even as ground realities and understanding of water have both undergone a sea change, the CWC and CGWB have remained virtually unreformed, working in pristine isolation from each other. with little dialogue or co-ordination between them. The user-friendly access to same pattern is visible in the primary stakeholders of water; build a novel architecture of Jal Shakti in 2019

बांगलादेशी हिंदूंसाठी 'सीएए'त सुधारणा करा- मिलींद देवरा

मुंबई, दि.२० (हिंदुरऱ्थान मध्ये धार्मिक कट्टरतावाद इस्लामवाद्यांशी : बांगलादेशात समाचार) जिहादी मुस्लिमांकडून हिंदूंच्या हत्याकांडावर आता तीव्र प्रतिक्रिया उमटू लागल्या आहेत. काँग्रेस नेते मिलींद देवरा यांनी सीएए कायद्यात बदल करून बांगलादेशातील हिंदूंना भारताचे नागरिकत्त्व करण्याची मागणी प्रदान आहे. यासंदर्भात मि केली लींद देवरा यांनी ट्वीट करत मागणी केली आहे. सदर दूर्गापूजा बांगलादेशमध्ये झालेला उत्सवाढरम्यान आणि जिहादी हिसाचार धर्मांधांनी केलेली तोडफोड भारतातून या घटनांमळे ਨੀਕ਼ प्रतिक्रिया त्यावर उमटू लागल्या आहेत. या घटनेमध्ये ४ जण ठार झाले असून अनेक जखमी झाले आहेत. त्यामूळे बांगलादेश

वाढू लागल्याची टीका होऊ लगली आहे. बांगलादेशातील अल्पसंख्याक हिंदू समुदायावर होत असलेल्या हल्लयांच्या पार्श्वभूमीवर काँग्रेस नेते मिलिंद देवरा यांनी बांगलादेशी हिंद्रंच्या संरक्षणासाठी नागरिकत्व कायद्यात सुधारणा करण्याची मागणी केली आहे. यासंदर्भात मिलींद देवरा यांनी दोन ट्रीट केले आहेत. पहिल्या ट्रीटमध्ये देवरा यांनी नमूद केले की, बांगलादेशमध्ये वाढणारी सांप्रदायिक हिंसा अत्यंत चिंताजनक आहे. धार्मिक छळापासून पळून जाणाऱ्या बांगलादेशी हिंदूंचे संरक्षण आणि पुनर्वसन करण्यासाठी सीएएमध्ये सुधारणा करणे आवश्यक आहे. भारतीय मस्लिमांना बांगलादेशी

शेतकरी संबंधित अधिकारी यांनी गावातील जमिनीचे दर घोषित करून ते योग्य असल्याची ग्रामसभेकडून मान्यता द्यावी व सध्याची शेतीचा खरेदी दर हा रेडीरेकनर दरापेक्षा कमीत कमी ५-१० पट अधिक असून जमीन खरेदी दर हे रेडीरे कनर दरानुसार त्याची सरकार दरबारी नोंद ५-६ लाख एवढीच करतात जमीन कायद्यानूसार सरकार दरबारी नोंदीनुसार मोबदला जाहीर केला जाणार असल्याने शेतकरी हवालदिल झालेला आहे तरी सदर जमिनीबाबत मोबदला ५ ते १० पट वाढवावा सध्याची खरेदी दर व त्यांची सरकार दरबारी होणारी नोंद यामध्ये फारच मोठी तफावत
